Other Information

The Company's Management and the Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the Financial Statements and our auditors' report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those charged with Governance for the Financial Statements

The Company's management and the Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, the financial performance, the changes in equity and the cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, the Management and the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the

company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

We have audited the internal financial controls over financial reporting of **PATEL RETAIL LIMITED** ("the Company") as of March 31, 2025 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial

reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Revisions to accounting estimates are recognised prospectively.

(d) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial Assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- (a) Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss); and
- (b) Those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

- (a) For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income.
 - (b) For investments in debt instruments, this will depend on the business model in which the investment is held.
 - (c) For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.
- The Company reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not measured at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

(a) Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI) Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other income or other expenses (as applicable). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss (FVTPL) Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other income or other expenses (as applicable) in the period in which it arises. Interest income from these financial assets is included in other income or other expenses, as applicable.

(b) Equity instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has selected to present fair value gains and losses on equity investments in other comprehensive income and there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other income or other expenses, as applicable in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(iii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime credit losses (ECL) to be recognised from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the Company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

(iv) Derecognition of financial assets

(a) The Company has transferred the rights to receive cash flows from the financial asset or

(b) Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(II) Financial Liabilities

(i) Measurement

Financial liabilities are initially recognised at fair value, reduced by transaction costs (in case of financial liability not at fair value through profit or loss), that are directly attributable to the issue of financial liability. After initial recognition, financial liabilities are measured at amortised cost using effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash outflow (including all fees paid, transaction cost, and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition. At the time of initial recognition, there is no financial liability irrevocably designated as measured at fair value through profit or loss.

(ii) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

(e) Inventories Valuation

(i) Raw materials, components, semi-finished goods & finished goods are valued at lower of cost and net realisable value.

(ii) Cost of Raw Materials, components is arrived at Weighted Average Cost and Cost of semi-finished good and finished good comprises, raw materials, direct labour, other direct costs and related production overheads is arrived through Weighted Average Cost.

(iii) Scrap is valued at net realisable value.

(iv) Due allowances are made in respect of slow moving, non-moving and obsolete inventories based on estimate made by the Management.

(f) Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty and net of returns, trade discount taxes and amounts collected on behalf of third parties. Discount is recognised on cash basis in accordance with the contractual term of the agreement with the customers. The Company recognises revenue as under:

(i) The Company recognizes revenue from sale of goods when:

(a) The significant risks and rewards of ownership in the goods are transferred to the buyer as per the terms of the contract, which coincides with the delivery of goods.

(b) The Company retains neither continuing managerial involvement to the degree usually associated with the ownership nor effective control over the goods sold.

(c) The amount of revenue can be reliably measured.

(d) It is probable that future economic benefits associated with the transaction will flow to the Company.

(e) The cost incurred or to be incurred in respect of the transaction can be measured reliably.

(f) The company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Interest on deployment of funds is recognised on accrual basis. Dividend income is recognised when right to receive dividend is established. Profit on sale of investments is recognised on sale of investments.

(g) Property, plant and equipment

(i) Recognition and measurement

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2021 measured as per the previous GAAP and used those carrying value as the deemed cost of the property, plant and equipment.

Freehold land is carried at historical cost. All other items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. The cost of an item of property, plant and equipment shall be recognised as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss. The cost of an item of property, plant and equipment comprises:

- a) its purchase price, including import duties and non-refundable taxes (net of GST), after deducting trade discounts and rebates;
 - b) any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management;
 - c) borrowing costs for long-term construction projects if the recognition criteria are met.
- If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are disclosed under 'Capital work-in-progress'.

(ii) Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred.

(iii) Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values, if any, over their estimated useful lives using the Reduced Balance method in the manner and at the rates prescribed by Part 'C' of Schedule II of the Act, except as stated below. Depreciation on additions/(disposals) is provided on a pro-rata basis i.e. from/ (upto) the date on which asset is ready for use / disposed off.

The estimated useful lives of assets are as taken as per Companies Act, 2013

(h) Intangible assets

On transition to Ind AS, The Company has elected to continue with the carrying value of all of its intangible assets recognised as at 1 April 2020 measured as per the previous GAAP and used those carrying value as the deemed cost of the intangible assets.

(i) An intangible asset shall be recognised if, and only if: (a) it is probable that the expected future economic benefits that are attributable to the asset will flow to the Company and (b) the cost of the asset can be measured reliably.

(iii) Computer software is capitalised where it is expected to provide future enduring economic benefits. Capitalisation costs include licence fees and costs of implementation / system integration services. The costs are capitalised in the year in which the relevant software is implemented for use. The same is amortised over a period of 5 years on straight-line method.

(i) Leases

Company as lessee:

Lease under which the Company assumes substantially all the risks and rewards of ownership are classified as Finance Leases. The leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased items, are classified as operating lease. Operating lease payments are recognised as expenses in the Statement of Profit and Loss.

(j) Employee Benefit

(i) Defined Contribution Plan

Contribution to defined contribution plans are recognised as expense in the Statement of Profit and Loss, as they are incurred.

(ii) Defined Benefit Plan

Company's liabilities towards gratuity and leave encashment are determined using the projected unit credit method as at Balance Sheet date. Actuarial gains / losses are recognised immediately in the Statement of Profit and Loss.

(k) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. All the foreign exchange gains and losses are presented in the statement of Profit and Loss on a net basis within other expenses or other income as applicable.

(l) Borrowing cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

(i) Commencement of capitalisation

Capitalisation of borrowing cost as part of the cost of a qualifying asset shall begin on the commencement date. The commencement date for capitalisation is the date when the entity first meets all of the following conditions:

- a. it incurs expenditures for the asset;
- b. it incurs borrowing costs; and
- c. it undertakes activities that are necessary to prepare the asset for its intended use or sale.

(ii) Cessation of capitalisation

Cessation of capitalisation shall happen when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete. Other borrowing costs are recognised as an expense in the period in which they are incurred.

(m) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company; and
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year.

(ii) Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares; and
- the weighted average number of dilutive potential equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(n) Impairment of Assets

Intangible assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are compared at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or Companies of assets (cash-generating units). Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(o) Provisions, contingent liabilities and contingent assets

(i) Provisions:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit and loss.

(ii) Contingent liabilities:

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

(iii) Contingent Assets: Contingent Assets are disclosed, where an inflow of economic benefits is probable.

(p) Investments

On transition to Ind AS, equity investments are measured at fair value, with value changes recognised in Other Comprehensive Income, except for those mutual fund for which the Company has elected to present the fair value changes in the Statement of Profit and Loss.

(q) Trade receivables

Trade receivables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

(r) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are recognised, initially at fair value, and subsequently measured at amortised cost using effective interest rate method.

(s) Operating Cycle

Based on the nature of products/activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non current.

(t) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Rupees Lacs (upto two decimals), unless otherwise stated as per the requirement of Schedule III (Division II).

(u) Government Grants, subsidies and export incentives

Government grants and subsidies are accounted when there is reasonable assurance that the Company will comply with the conditions attached to them and it is reasonably certain that the ultimate collection will be made. Capital grants relating to specific fixed assets are reduced from the gross value of the respective fixed assets. Revenue grants are recognised in the Statement of Profit and Loss. Export benefits available under prevalent schemes are accrued in the year in which the goods are exported and there is no uncertainty in receiving the same.

(v) Segment reporting

Operating segment are reported in a manner consistent with the internal reporting provided to the Chief operating decision maker (CODM). Identification of segments : In accordance with Ind As 108 "operating segment", the operating segment used to present segment information reviewed by CODM to allocate resources to the segments and assess their performance. An operating segment is a component of the group that engages in the business activities from which it earns revenues and incurs expenses, including revenues and expenses that relate to transactions with any of the group's other components.

(w) Dividend

The Company recognises a liability for any dividend declared but not distributed at the end of the reporting period, when the distribution is authorised and the distribution is no longer at the discretion of the Company on or before the end of the reporting period. As per Corporate laws in India, a distribution in the nature of final dividend is authorized when it is approved by the shareholders. A corresponding amount is recognized directly in equity.

(x) Income tax

Tax expense comprise of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act.

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

At each balance sheet date unrecognized deferred tax assets are re-assessed. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realized.

(y) Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into cash and have original maturities of three months or less from date of purchase to be cash equivalents.

(z) Cash Flow Statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

(aa) Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) and does not take into account the expected credit losses.

Fair value hierarchy *

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into the three levels prescribed under the accounting standard.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes mutual funds that have quoted price. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.

There were no changes made during the period/year to valuation methods or the processes to determine classification of level.

* The company does not recognise any financial asset/ liability under fair value and hence, the disclosures regarding the level of financial assets and liabilities in the fair value hierarchy is not given.
